About Satric

Satric means straight. The inspiration behind this brand comes from honesty in quality and transparency in business and customer service. Satric is a registered brand in the field of railway products manufacturing in Iran.

Today, with 10 products, we are a trusted supplier to the specialized railway industries of the country. Satric products represent the highest quality, and through a strong quality control system and a modern development unit, we comply with international standards and will continue to do so.

Atisazan Deylaman Company was founded on February 2002 ,16, in Tehran. Initially, the company was established with investments from retired railway professionals to meet the repair and maintenance needs of the railway industry. In 2010, with changes in major shareholders and new domestic and foreign investments, the company expanded its activities into specialized areas of the railway industry, locomotives, and passenger trains.

With changes in its scope of activities, the company has undertaken specialized repairs of GM and GE American locomotives, supply of locomotive parts and equipment, wheel turning of passenger wagons in Tabriz, installation of external charging systems for passenger wagons in Mashhad, as well as procurement and import of various specialized railway equipment.

By utilizing its group offices abroad, especially in the UAE, Germany, and Canada, the company has the capability to supply and import various machinery and equipment for the railway industry.

In line with its long-term strategy, the company has also entered the non-factory production model for certain high-demand railway products. After months of technical evaluation of successful, high-quality factories complying with European and domestic standards, we began joint production of these specialized products. This was achieved in (1404) 2025 with official production licenses from the Ministry of Industry, Mine, and Trade, as well as the National Standards Organization of Iran, coinciding with the year dedicated to "Support for Investment in Production."

All our products are manufactured and delivered in specialized, high-tech factories with the best raw materials, in partnership with Deylaman Group's commercial partners.

التعريف بساتريك

كلمة ساتريك تعني مستقيم. واستُلهم هذا الاسـم من الصدق في الجودة والشـفافية فـي التجارة وتقديم الخدمات للعملاء. سـاتريك علامة تجارية مسـجَّلة في مجـال تصنيع منتجات السـكك الحديدية في إيران.

شركة آتي سازان ديليمان تأسست في ١۶ فبراير ٢٠٠٢ في طهران. وقد أُنشئت في البداية باستثمارات من بعض المتقاعدين في قطاع السكك الحديدية لتلبية احتياجات الصيانة والإصلاح في هذا القطاع. وفي عام ٢٠١٠، ومع تغيّر كبار المساهمين وضخ استثمارات محلية وأجنبية جديدة، بدأت الشركة أنشطتها المتخصصة في صناعة السكك الحديدية والقطارات والركاب.

ومـع تغيّـر نطـاق نشـاطها، قامـت الشـركة بأعمـال صيانـة متخصصـة للقاطـرات الأمريكيـة مـن نـوع GM وGE، وتوريـد قطـع وأدوات القاطـرات، وخراطـة عـجلات عربـات الـركاب فـي تبريـز، وتركيـب أنظمـة شـحن خارجيـة لعربـات الـركاب فـي مشـهد المقدسـة، فـضلاً عـن اسـتيراد وتوريـد مختلـف المعـدات المتخصصة في السـكك الحديدية.

واستنادًا إلى استراتيجيتها، دخلت الشركة أيضًا في مجال الإنتاج بدون مصنع لبعض المنتجات ذات الاستهلاك العالي في قطاع السكك الحديدية الوطني. وبعد أشهر من الدراسات والتقييم الفني للمصانع الناجحة وذات الجودة العالية التي تلتزم بالمعايير الأوروبية والمحلية، بدأنا إنتاجًا مشتركًا لهذه المنتجات المتخصصة. وقد تحقق ذلك في عام ٢٠٢٥ (١٤٠٤هـ.ش) مع الحصول على تراخيص رسمية للإنتاج من وزارة الصناعة والمناجم والتجارة ومنظمة المعايير الوطنية الإيرانية، بالتزامن مع عام "دعم الاستثمار في الإنتاج".
